

Evidence-cell schema

A reported number is publishable only when the metric and its claim boundary are bound to provenance.

cell_id paper-cell:paysim...test_pr_auc	dataset_id PaySim / Elliptic / Elliptic2	split train, validation, test, official
command relaytic release-safety ...	artifact_ref.field manifest.json -> test_pr_auc	budget_tier baseline, competitive, context
leakage_posture forbidden fields excluded	operating_point review budget and threshold	claim_state supporting, context, blocked

Tables and figures read these cells instead of copying benchmark numbers by hand.
